

The future is mobile

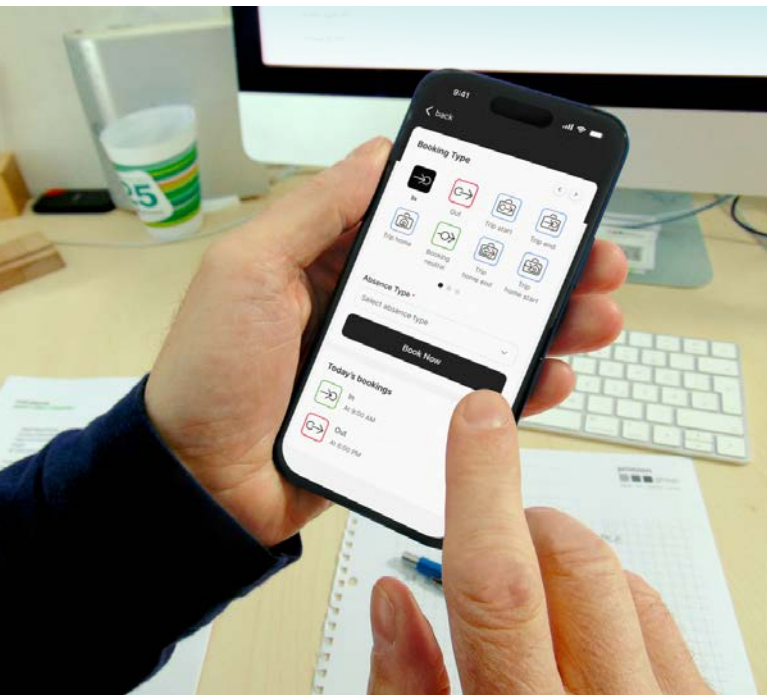

Time and Attendance with your **smartphone,** **tablet** or **desktop**

MyPrimion App

MyPrimion App

The MyPrimion App – part of prime WebTime, Primion's solution for time recording – is the brand new user interface for employees and supervisors to perform daily time recording tasks.

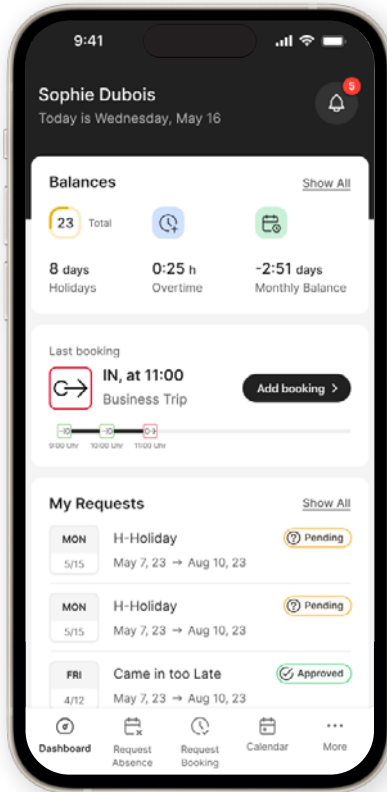

With the MyPrimion App, employees can use their smartphone, tablet or desktop browser to make bookings, request leave, view account balances and much more.

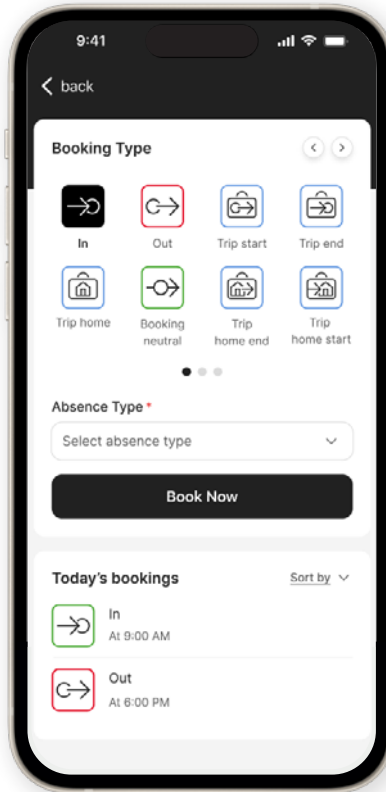

The MyPrimion App is indispensable in a flexible working environment: it supports employees whether they are at home, at work or on site.

Features

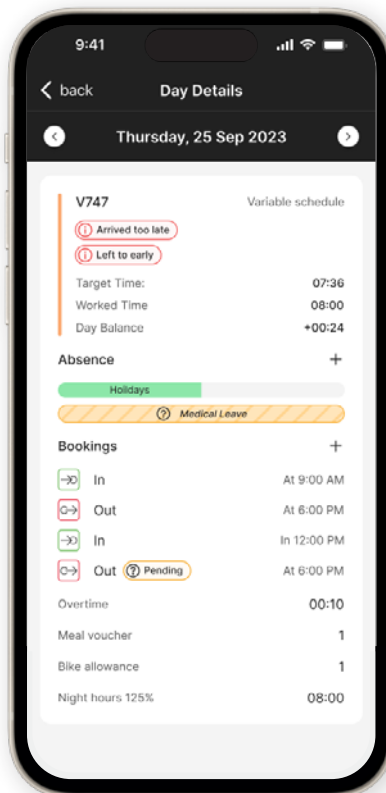

- One app for smartphones, tablets and browsers with an intuitive user interface
- Same login credentials as for prime WebSystems
- Available as a 'native app' in the Google Play Store (Android) and Apple App store (iOS)
- Accessible from anywhere via the Internet
- Secure connection to your prime WebTime installation
- Dashboard showing the most important information at a glance, with direct access to bookings
- Bookings for Arrive and Depart, including all special booking types and absence reasons like Business trips, Doctor's visit, etc.
- Offline bookings: If a network connection is temporarily unavailable, bookings will be saved on the device and sent at a later time
- Overview of vacation balance, period balance and period total time accounts
- Monthly calendar, showing an overview of absences and infringements
- Weekly and daily calendar, showing an overview of absences, bookings, some balances and infringements
- Request absence from supervisor
- Request forgotten bookings
- Optionally attach photos or documents to a request
- View the status of pending requests
- Multi language support: English, German, Dutch, French, Spanish
- Suitable for people with disabilities due to BITV 2.0 and WCAG 2.1 compliance.

Benefits for the HR department

The MyPrimion App provides your employees with a professional, intuitive designed application that significantly simplifies booking scenarios and evaluations.

The App runs in a modern cloud platform, but can be connected to your existing prime WebTime system.

With the MyPrimion App, you get access to the MyPrimion cloud platform, the future platform for all Primion digital applications.

Benefits for users

Time and attendance is available everywhere:
at home, in the office, on the road.

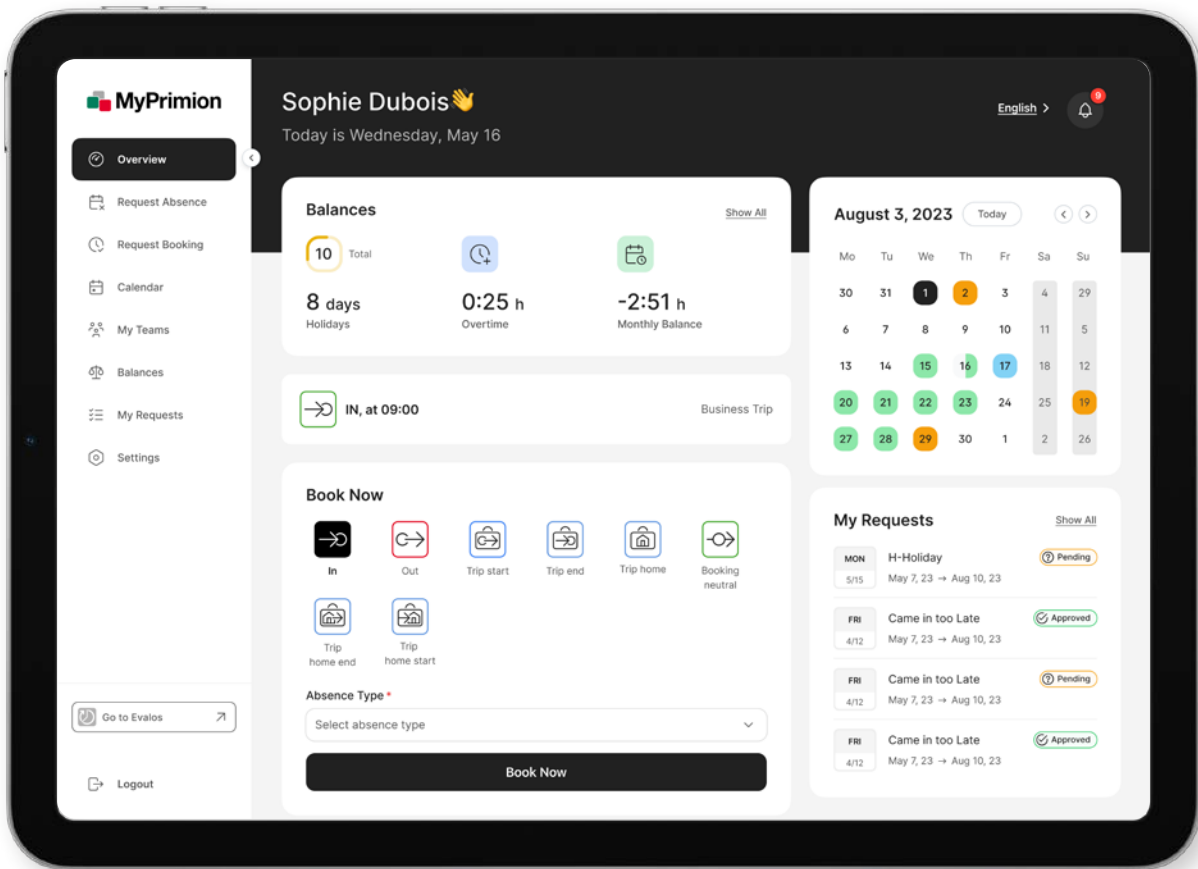

The app is easy to find in the Android and Apple App stores and is free to install on your smartphone.

It's easy to use, with the same look and feel on both smartphone and desktop browser.

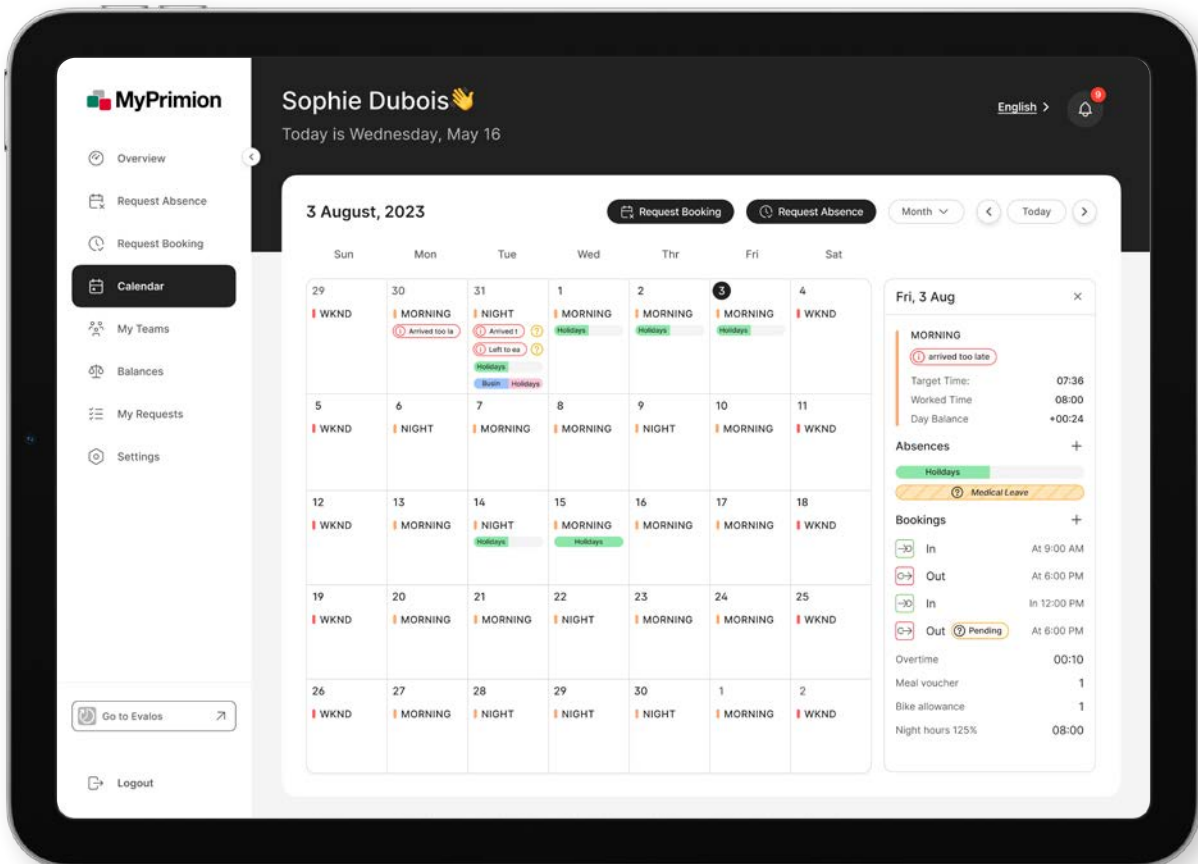

No network connection required to book in and out.

Log in only once.

The app is also available for users with impaired vision.

Technical requirements

The MyPrimion App is hosted as part of the MyPrimion platform in the Oracle Cloud Infrastructure (OCI), the future new platform for all Primion systems. It can be connected to an existing prime WebSystems installation (version 166 or higher), which can be hosted on premises or in a cloud environment.

The MyPrimion platform takes care of a secure authentication of the user towards its own Identity Management module.

The App is supported on Android (from version 5.0 on) and iOS devices (from version 11.0 on).

Licensing is on a user basis.

What the future will bring

Notifications on the phone (push messages):

Get notified when a request has been approved or a request has been sent to you for approval.

Single sign-on: Log in once on your PC to the application with your global username and password.

Status: Is the colleague working at home or in the office today, or is he on vacation?

Makro bookings: a combination of several actions into one.

Reports for employee and supervisors.

And other functions that help you save time and money.

Our intuitive Time Recording System is designed with convenience in mind.

It combines intelligent technology with a streamlined interface. This allows your team to clock in and out within seconds.
